PURE SAFFRON

HBC boasts the highest quality saffron in Australia and New Zealand based on international standards through laboratory testing. Saffron is considered the most expensive spice in the world, due to the extremely labour-intensive process involved in harvesting these fine threads. This musty, honey-flavoured spice is best used in small quantities, often becoming bitter when overused. Most commonly used in risottos and paellas, this beautiful spice is a staple ingredient for Middle Eastern and European dishes.

White Truffle OIL **\$21.50**

- 250ml
- 6 PC/CTN
- (L)5.5x(H)14.5cm
- B# 3245270000719
- 13245270000716

White Truffles originate in Alba, Italy and are considered by many to be the most prestigious truffles. The strong, intense, earthy flavour of this oil will bring a deep aroma to your dishes, and will especially complement pasta, mashed potatoes, meat and other dishes. Just like the most prestigious perfumes, the white truffle extract is very rare, expensive and difficult to source. Only a few companies master the art of producing the extract. We infuse the extract in Grapeseed Oil because of its great properties and its neutral flavour that won't interfere with the aroma like olive oil may do.

Black Truffle OIL **\$21.50**

- 250ml
- 6 PC/CTN
- (L)5.5x(H)14.5cm
- B# 3245270000702
- TUN 13245270000709

Black Truffles originate in Provence, France and are one of the most precious ingredients of Mediterranean cooking. The strong, intense, earthy flavour of this oil will bring a deep aroma to your dishes, and will especially complement pasta, mashed potatoes, meat and other dishes. Just like the most prestigious perfumes, the truffle extract is very rare, expensive and difficult to source. Only a few companies master the art of producing the extract. We infuse the extract in Grapeseed Oil because of its great properties and its neutral flavour that won't interfere with the aroma like olive oil may do.

Avocado OIL **\$12.95**

- 250ml
- 6 PC/CTN
- (L)5.5x(H)14.5cm
- B# 3245270000726

Avocado oil can be used the same way you use your extra virgin olive oil. But with a smoke point at 181 degrees it is very practical to use in the kitchen for pretty much any application. On salads or in a dressing, it contributes a hint of avocado flavour, and it is wonderful drizzled over slices of fruits. Cook, bake, dress or simply dip, avocado oil will make it all. Avocado oil is processed on equipment very similar to those used to process extra virgin olive oil. The avocado pulp is first expeller-pressed usually using a centrifuge. It is then lightly filtered and polished, using another centrifuge. The result is beautiful, emerald green oil with high level of monounsaturated fats that will bring a delicious, light avocado flavour to your dishes.

LA TOURANGELLE ARTISAN OIL

Roasted Walnut Oil **\$9.45**

250ml

- 6 PC/CTN
- (L)5.5×(H)14.5cm
- B# 3245270000535
- TUN 13245270000532

Walnut oil is delicious and easy-to-use oil. In salads, walnut oil mixes very well with balsamic vinegar or red wine vinegar to create simple but flavourful vinaigrette. Also try it with tarragon white vinegar. It is also delicious on grilled fish or meat: A dab of walnut oil is the perfect touch for enhancing flavours and easing digestion when added towards the end of your beef bourguignon or meat dishes. You can also try it in pasta with cheese. Don't hesitate to use it in cakes and baked goods, particularly with apples or pears. After harvesting, the nuts are washed, sorted, sun-dried for several days and stored for further drying. The walnut kernels are then ground and roasted in cast-iron kettles. The resulting warm paste is pressed in a hydraulic press. Following mechanical extraction, the oil is lightly filtered and bottled. Walnut oil is extracted from English walnuts only.

Pumpkin Seed Oil **\$15.95**

250ml

- 6 PC/CTN
- (L)5.5×(H)14.5cm
- B# 3245270000764
- 13245270000761

Toasted pumpkin seed oil adds a rich taste to salad dressing, soup, marinade, pasta, dips, pastries and more. Check out our recipe section for more. The pumpkin seed oil vanilla ice cream may be the easiest way to enjoy it: simply drizzle the ice cream with the oil and sprinkle with some pumpkin seeds...Enjoy! The process of extracting the oil has not changed for centuries. First, the best pumpkin seeds are toasted. It is then pressed in a hydraulic press. Following mechanical extraction, the oil is lightly filtered and bottled in a protective tin can to preserve freshness.

Roasted Almond Oil **\$10.75**

250ml

- 6 PC/CTN
- (L)5.5×(H)14.5cm
- B# 3245270000559
- TUN 13245270000556

Roasted almond oil is an outstanding product in the kitchen. With its fresh roasted almond flavour, the oil reveals subtle nuances when combined with other ingredients. Its delicate character makes it a good substitute for olive oil in cases where walnut oil and hazelnut oil are just too powerful. When combined with any salad, fish or vegetable dish, almond oil helps to fashion a gourmet meal. Almond oil is very popular in India with duck and curry, and in China it is also used with chicken and duck. Give almond oil a try - you are sure to love it. After harvesting, the nuts are washed, sorted, sun-dried for several days and stored for further drying. The almonds are then ground and roasted in cast-iron kettles. The resulting warm paste is pressed in a hydraulic press. Following mechanical extraction, the oil is lightly filtered and bottled.

Roasted Hazelnut Oil **\$9.99**

250ml

- 6 PC/CTN
- (L)5.5×(H)14.5cm
- B# 3245270000504
- TUN 13245270000501

Roasted hazelnut oil is a well-kept secret of many top chefs. Great in salads, hazelnut oil combines very well with vinegar to produce light but flavourful vinaigrette. However, some say it goes even better with lemon juice. With pasta, potatoes and beans, hazelnut oil serves as a wonderful substitute for butter. Finally, hazelnut oil works great with fish, and you won't go wrong to give it a try with cheese or carpaccio. Once you "discover" hazel oil, you will return time and time again to rediscover this versatile treasure! The process of extracting the oil has not changed for centuries. First, the hazelnuts are ground and roasted in cast-iron kettles. The resulting warm paste is then pressed in a hydraulic press. Following mechanical extraction, the oil is lightly filtered and bottled. The leftover cake is sold as cattle feed or for use in bakeries.
