LITTLE Green Panda

Home compostable cups
designed to disappear

Hot & Cold Drinks

Say hello to your new favorite home compostable cups! The Friendly Cup is made from a nano water based technology that reacts when in contact with liquids. Pop them in the green bin and they'll decompose naturally over time like a piece of fruit.

The path to putting an end to single use plastics is a long journey, but at least there's a better option available:

We collect used
plant-pulp from
our straws

Transform
into
plant puree

Enjoy cups
truly designed
to disappear

Decomposes
naturally like a
piece of fruit

Every day, humans cut down 80,000 to 160,000 trees to make paper packaging but today that stops with you.

Meet our 100% plant puree cup that's compostable in a home compost bin

We support communities by reusing plant "waste" created from our by-products and put it to good use. We use the leftovers to create one-of-a kind, home compostable cups designed to disappear in your garden.

Our happy partners:

Majestic Cinemas were searching for a new drinking straw option after numerous complaints from customers that our existing paper based straws were melting into their drinks during the movie and had an awful feel in your mouth after a few sips. Our winning solution were the straws from Little Green Panda. We'd recommend Little Green Panda straws to everyone who wants to give their customers a great drinking experience whilst meeting the demands of keeping the environment clear from plastics and pollutants.

More than
just straws

We have personally overseen all aspects of our manufacturing and supply chain operations in person. Our sustainable straws are not only show stoppers, but also handcrafted with love and support small-scale farming communities.

Our happy partners:

Great product! Love the straws, love that we've gone back to using the original material - straw, love that they don't go soggy while in your drink, but will break down in your compost!

KARMA WATER, NEW ZEALAND

**SOURCED FROM THE
HERETAUNGA AQUIFER,
NEW ZEALAND**

This isn't just another artesian still water. It's Kiwi-owned, naturally filtered NZ water. Each drop has been sourced from the depths of the Heretaunga Aquifer in Hawkes' Bay, and bottled up to make 300ml of pure Karma Water. But what makes this water worth drinking is all that happens after you've sipped the last drop.

1% from every bottle sold supports education, clean water projects in Sierra Leone and so much more. So when you're drinking this water, know it's a good one.

KARMA COLA, NZ

Karma Cola's original recipe is made with Fairtrade organic cane sugar and real cola nut grown by the Mende and Temne people of Sierra Leone. Part of the proceeds from each bottle go to cola growers' families.

Gingerella is made from ginger—grown organically by Fairtrade farmers in Wayamba, Sri Lanka. Its clean, crisp and fiery kick comes from a unique blend of Fairtrade organic ginger, lemons, sugar and spice and a fair deal for the people who grow them.

Lemmy is a combination of organic lemons and Fairtrade organic cane sugar where the farmers get a fair deal for their crop, and a Lemmy zing to you. If life gives you lemons change your luck with a Lemmy Lemonade

Razza - Lemons get a sweet tangy twist, a pink lemonade. Fruity, fizzy and fearless, a feel-good flavour from natural raspberry, organic lemons and Fairtrade organic cane sugar

Organic Orangeade - Juicy organic valencia oranges sourced from Mexico and lifted by a dash of Fairtrade organic sugar

BOTANICAL TONICS, GREEN ST KITCHEN, WA

Inspired by traditional 'Jamu' which is a medicinal tonic that has its origins deep in the Indonesian tropics. Jamu has been used for centuries for good health and wellbeing. Traditionally jamu is made by cooking the ingredients together hence killing all the good living bacteria in the fresh ingredients. We wild ferment the brew using naturally occurring lactic bacteria's in the fresh ingredients and natural sugars to create a botanical tonic range that is like no other. Our botanicals are not kombucha, nor are they juice. It is a unique product that has a wealth of health benefits and is here to shake up the beverage category.

WILD FERMENTED

An all-natural process of lactic bacteria and sugars fermenting in harmony which results in a gut loving tonic full of flavour.

LOW IN SUGAR

Unlike many drinks on the market that are high in sugar or artificial sweeteners our jamus are all natural and low in sugar.

ALKALISING ELIXIR

Our jamu range is packed with probiotics to nourish the gut and balance PH levels.

WA TRUFFLES, MANJIMUP WA

Australian Truffle Traders grow and supply fresh black truffles (*Tuber Melanosporum*) from the Southern Forests of Manjimup, Western Australia.

Prized by many of the world's best chefs and restaurateurs for their quality and consistency, our truffles are from the most prolific truffle growing region in the Southern Hemisphere.

Fast delivery means within 24-48 hours of being unearthed, you can have perfectly ripe truffle in your hands. Excellent grading standards mean the weight you purchase is pure black truffle. The ATT farm supplies black truffles to the finest restaurants in Europe, America and Asia.

*****Australian Black Truffle Season runs June to August 2023 - approx.**

What does the class mean?

- 1st class –whole attractive truffles, maybe irregular in shape with minor imperfections
- 2nd class – sold as pieces and likely to have surface imperfections, can be larger or small

<i>Product Name</i>	<i>Per gram price</i>	<i>Pack Size Approx</i>
1st class black truffle	\$1.35	250g or 500g
2nd class black truffle small	\$0.98	250g or 500g
Truffle trimmings *LIMITED AVAILABILITY*	\$0.85	500g
**1kg bags of any above	5% discount	1kg

Extra Class whole \$1.70 / 2nd class large \$1.10

How to Store Black Truffle

Truffles are best eaten when they are perfectly ripe. Eat them too early or too late and their aroma will not be as good.

Truffles are best enjoyed 5 – 14 days after harvest, which is why our dogs noses are so well trained to find the mature truffles and our logistics system works so quickly, so that you have the maximum time with the truffle in its most perfect condition.

We recommend that the truffle is wrapped in clean absorbent cloth with minimal lint and re-vacuumed. It is good for the truffle to be opened every day, towels changed and re vacuumed. Hold at 2 to 4C. If you cannot re-vacuum, you can keep it in a sealed container in the fridge, along with some uncooked rice to absorb any moisture. If using a domestic fridge, it should be kept in the vegetable draw.

You can also store truffle in a sealed jar with some eggs so they absorb the truffle aroma through their semi permeable shell. Some people like to store truffles in rice, Madera or duck fat. No way is wrong and please feel free to learn and discover what works best for you. We recommend the absorbent cloth method (see above) to ensure minimal weight loss and good aroma.

Restaurant / Café Ideas

Black truffle can be heated to 50 degrees centigrade without losing its aroma. This allows it to be used in a wide variety of dishes, like:

- Roast chicken with truffle
- Grated truffle over mashed potato
- Truffle and cheese grilled sandwich
- Truffle shaved over a risotto or linguine
- Truffle and West Australian marron
- Scrambled eggs with truffle
- Steak and shaved truffle

Some successful venues offer a specials menu over the period to add the black truffle onto key dishes meaning a great add on sale and increasing \$ per customer for minimal cost. Even just one or two dishes like breakfast scrambled eggs for a café.

When cooking with truffles you will require about 2 - 3g of truffle.

If cooking in a dish, typically 2% by volume – so 100g sausage or butter has 2g truffle.

Margins are better than you think!

Truffle price for a 2nd truffle: \$985 / kg - \$0.98 / g

2-3g of truffle: \$1.96- \$2.94 cost

Surcharge for the dish: \$10 cost

Gross Margin: **71 - 80% GM** add on minimal effort

Truffle Slicers

Black Truffle is best served using a truffle grater or shaver.

We can offer also the following Truffle slicers:

PIZZERIA RANGE

MOZZARELLA FOR MELTING

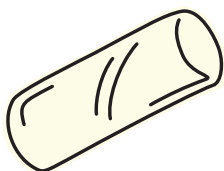

Made with 100% Australian grass-fed cow's milk sourced from Gippsland VIC

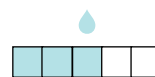

Made with 100% Australian grass-fed buffalo milk sourced from Kerang VIC

PIZZARELLA

Logs of fresh cow's milk mozzarella, intentionally stretched with less water keeping your slice from becoming too wet. gorgeously melty and the perfect option for most pizzerias, including short and longer cooking times.

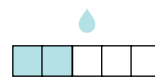

1.5kg Log, box of 6

LISTARELLE

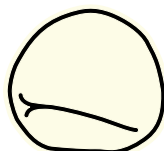

Shredded mozzarella for your convenience. Beautifully melty and ready to go for high-volume pizza service. Well suited for longer cooking times at lower temperatures.

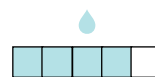

2.5kg bag, box of 3

FIOR DI LATTE

The OG! Fior di Latte is the typical choice for traditional Neapolitan woodfired pizza. Incredibly melty, soft and milky in flavour. Higher moisture compared to Pizzarella. Suitable for high temperature, fast cooking times.

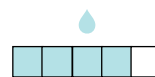

1kg, box of 4 or
7kg BULK, supplied individually

PERLINE

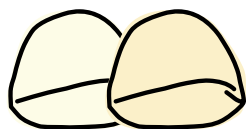

Delightful little pearls of fresh cow's milk mozzarella. Beautifully soft and milky in flavour, with a higher moisture compared to Pizzarella.

VANNELLA CHEESE

BUFFALO BOCCONCINI

**MADE WITH 100% AUSTRALIAN
GRASS-FED BUFFALO MILK**
sourced from Kerang VIC

TASTE PROFILE

Soft and supple mouth fulls of delicious buffalo mozzarella. Sweet, lactic-acidic flavour with a milky bite.

WHY SMALLER?

Just like our Buffalo Mozzarella, but small 33g pieces. Serve as an antipasto wrapped in prosciutto, with Summer melon, or toss through a fresh salad.

BUFFALO MILK

Aside from its wonderful flavour, buffalo milk has also been widely considered a more easily digestible variety of milk, with those suffering from lactose intolerance finding buffalo cheese a better option for their diets.

We do indicate traces of cow on our packaging due to both cows and buffalo lines made in the same factory.

PRODUCT CONFIGURATION

- Retail 180g tub
- Food Service 1kg bucket

VANNELLA CHEESE

SCAMORZA BIANCA

- MOZZARELLA FOR MELTING -

**MADE WITH 100% AUSTRALIAN
GRASS-FED COW'S MILK**
sourced from Gippsland VIC

TASTE PROFILE

Pure cow's milk mozzarella with a firm texture. Sweet, lactic flavour with a salty finish. Perfect for all your melting needs.

PRODUCT CONFIGURATION

- Retail 230g unit
- Food Service 950 log

MOZZARELLA FOR MELTING

Scamorza Bianca is stretched with less water resulting in a firm texture. Consequently, it has a beautiful melting quality without the release of water. Use for parmigiana, lasagna, arancini, burgers, toasties and all things baked.

WHAT'S SCAMORZA?

Scamorza is made from curd which is fermented with live cultures. After stretching, the curd is molded into shape and bathed in salt water brine.

VANNELLA CHEESE

BURRATA RICCA

MADE WITH 100% AUSTRALIAN
GRASS-FED COW'S MILK
sourced from Gippsland VIC

TASTE PROFILE

Slice through a tissue-thin skin of cow's milk stretched curd to reveal a decadent heart of thick, creamy Stracciatella.

PRODUCT CONFIGURATION

- Food Service 1kg bucket (10 x 100g)

WHAT'S RICCA?

Burrata Ricca is filled with stracciatella made from mozzarella shreds and thickened cream, as opposed to pure cream, giving the product unmatched stability and a dreamy, luscious texture.

WHY RICCA?

Ricca, meaning "rich" in Italian, has been specially produced with the event space and fast-paced kitchens in mind. With its rounded shape and hand-crimped top, this captivating cheese is an exquisite centerpiece for your seasonal menu.

MULINO PERFETTO is milled from the highest quality GMO-free wheat, leaving the flour in its purest form. The world's best pizza flour, this authentic and traditional '00' flour is ideal for making pizzas and pasta.

Ingredients: 100% Wheat Flour.

MEAT ON A MISSION

People love meat. After all, it's delicious and they want to keep eating it. But they're looking for a better way. So we made Impossible™ Beef Made From Plants: meat made from plants, for people who love beef mince. Delicious and better for the planet.

Every pound of Impossible Beef Made From Plants (instead of beef mince from cows) uses:

**LESS
WATER**

**LESS GREENHOUSE
GAS EMISSIONS**

**LESS
LAND**

ANY WAY YOU WANT IT

Spiced, sauced, braised, grilled, you name it — if you know how to cook beef mince, you know how to cook Impossible Beef Made From Plants.

MADE FOR EVERYONE

92% of Impossible Foods consumers in the US eat meat from animals.⁵

THE IMPOSSIBLE FOODS DIFFERENCE

Delicious, mouthwatering meat with the sizzle and taste you love — made from plants. It's packed with 18.8 g of protein per 113g serving and is a good source of iron and fibre — but contains no animal hormones or antibiotics. It's also made with far fewer natural resources. Impossible Beef Made From Plants: better for the planet, good for your business.

SEA SALT

COLLECTION

PROUDLY AUSTRALIAN OWNED AND MADE

EYRE PENINSULA - SOUTH AUSTRALIA

MACROBIOTIC SEA SALT

The sense in which Olsson's has used this term refers to products or food that have had a minimum of human intervention in their manufacture or production. Macrobiotics is about food from the Earth. It is based on the Eastern ideal of achieving harmony between yin and yang. And while rooted in ancient tradition, the idea of the macrobiotic dietary approach is a remarkably modern way of eating.

Unlike common salt (which is just sodium chloride), natural Sea Salt (from sea water) contains sodium as well as other many important trace minerals in a balance similar to the extra cellular fluids in the body. One of the key benefits of Macrobiotic Sea Salt is that sea water (from which Olsson's Macrobiotic Sea Salt is made) has a relative mineral composition almost identical with that of the blood, so when sodium is excreted from the body, other essential minerals salts such as potassium, magnesium and trace elements are also excreted.

OUR FAMILY STORY

The Olsson family have been in business in Australia since 1888. Olaus Olsson arrived in Australia from Sweden in 1878. By 1888 Olaus had opened a grocery store in Parramatta and by 1906 he and his sons began delivering blocks of ice to homes in Western Sydney. In 1949, Olaus's youngest son Norman and his two sons, Charles and Malcolm formed Olsson Industries making pressed mineral and salt blocks for livestock as a direct result of requests from graziers for someone to produce supplements to meet the nutritional needs of their sheep and cattle during the severe drought that started in 1947 and continued until 1952. The idea of buying a salt-press was formed when Norman heard rumours about a demand for pressed salt supplements in the sheep industry which was booming at that time. Olsson's first salt block was produced the next year, in 1950, in a shed just west of Parramatta. It was the first pressed salt block produced in Australia to contain a range of minerals and was the forerunner, of all the multi-nutrient blocks produced in Australia. To service their growing business with salt, Charles, Malcolm and their father Norman purchased the leases to Pacific Salt works in Warooka, Yorke Peninsular, South Australia. And then in 1964, Charles and Malcolm took over the leases of the salt works from BHP north of Whyalla, Eyre Peninsular, South Australia. In 1983, Charles, Malcolm and their cousin Don Olsson commence building a new solar sea salt plant in Port Alma (near Rockhampton) QLD which took five years to complete.

MAKING OUR PRISTINE SEA SALT

The Olsson Family has been making solar sea salt in Australia since 1957. Olsson Pacific is the oldest family owned and operated sea salt maker in Australia. Solar salt is produced by the action of sun and wind on seawater in large ponds. Olsson's solar salt works are located in Queensland near the Great Barrier Reef and in South Australia near the Great Australian Bight. These areas are such beautiful places to make sea salt. Pristine Australian water, sun and wind work in harmony to create the gorgeous Australian sea salt taste we all love. Olsson's sea salt flakes are unique because of our location. Because Olsson's sea salt has as its only ingredient seawater from two of the world's most pristine oceans, the result is one of purest sea salts available. There are no chemical processes involved in the manufacture of our product, which is why we can guarantee that it is perfectly natural and pure.

Olsson's Sea Salt proudly launched their sea salt flakes in 2012 with great success in the Australian gourmet community. The ancient tradition of making sea salt into flakes is a closely guarded secret and has taken over a decade for Olsson Pacific to perfect. In 2013, Olsson's launched their macrobiotic sea salt and the much anticipated Black Truffle Salt at the end of the truffle season (September). In late-2015, word got out that the Olsson's Smoked salt (72 hours on Red Gum) was almost market ready and the launch date was set for August 2016.

**Our white corn is
grown locally in NSW**

You can't make a great taco without a great tortilla. And not all corn tortillas are created equally.

We craft our tortillas from beginning to end, starting with the raw corn kernel, grown by local farmers. No imported 'instant' tortilla flour, no *masa harina*. Just whole grain corn: cooked, soaked overnight and stone-ground on site, all within 24 hours of being flame-baked into fresh tortillas. This is the way it's always been done by the Aztecs and Mayans, and the way it's still done today in the villages of Mexico. It's like the difference between instant coffee and freshly ground real coffee. It's hard work, it takes longer, but it's worth it.

Harvest Australian grown corn

Cook whole grain kernels in water and lime

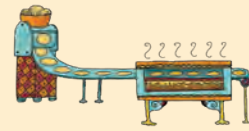

Soak overnight in limewater to release the nutrients

Stone grind in the molino (mill)

This makes masa (dough)

Press and cook tortillas

Stack in piles

Corn Tortillas

Available in white corn or blue. Our white corn tortillas have an authentic yellow appearance, and the strength, malleability and real corn taste that comes from making them from scratch. Our blue tortillas have a slightly sweeter and nuttier flavour that tastes as good as it looks.

FINGER LIME

The size of your little finger, but packing a HUGE nutritional punch with high levels of folate, Vitamin E and potassium. The Finger Lime is an unusual fruit that'll add a zesty vibrancy to any dish – try it with seafood!

QUANDONG PEACH

Funny name, delicious flavour! These sweet, glossy plums are packed with protein, complex oils, iron and zinc. While you can eat them fresh off the tree, we're selling them in Freeze Dried packs so you can add them easily to cakes, juices and fruit salads.

MUNTRIES

Muntries are small native fruits, reminiscent of blueberries, that grow on a low shrub or ground cover. With a spicy apple taste, muntries boast more than twice the antioxidant profile of a blueberry. Highly valued by the Aboriginal people in Victoria and South Australia, the fruit was an important part of diet, and the dried lather exchanged for valuable tools.

ROSELLA

Rosellas are a bright red flower with a unique tart flavour, reminiscent of rhubarb. Common throughout parts of Queensland and northern Australia, Rosellas were not originally native to Australia, rather introduced thousands of years ago from Africa. Nonetheless, they were utilised by Indigenous Australians for generations as a form of nourishment and medicine, given their high antioxidant properties.

DAVIDSON PLUM

Davidson Plum is a nutrition booster with high antioxidant properties. Davidson Plum's aroma evokes Rosella jam and stewed rhubarb, while its flavour is a delightful balance of tart and sweet with intense fruity overtones. It is a great addition to desserts, smoothies, homemade jams and sauces or simply as a natural red food colorant.

DESERT LIME

Growing to the size of grapes, the Australian desert lime is a small fruit with an intense, zesty flavour. Boasting three times the amount of Vitamin C than oranges, desert lime is also a very rich source of calcium, folate, Vitamin E and lutein. It also has a high potassium to sodium ratio, which may help to reduce blood pressure.

KAKADU PLUM

Our favourite, the Kakadu Plum A.K.A the Bush Plum. The Kakadu Plum is a nutrient-rich, antioxidant powerhouse boasting the highest Vitamin C levels of ANY fruit in the world! It's a tart little berry that is best enjoyed in small portions. We love it with homemade muffins or in smoothies.

RIBERRY

Medicinal AND delicious, the Riberry is rich in manganese and an important plant source of calcium. It can be enjoyed on a fancy cheese plate, stirred through Greek yoghurt or even squashed over ice cream! A slightly tart, spicy flavour with hints of sweet honey.

100% NATURAL • GMO FREE • VEGAN • NO FILLERS

This powerful group of herbs & seeds is so rich in vitamins, minerals and antioxidants, that it surpasses many renowned superfoods, and sets new global standards for nutrition and taste. Over the last 5 years, The Australian Superfood Co. has worked with local growers and indigenous communities to source and supply the highest quality native produce available. Also available in 80g, 250g, 500g, 1kg and 10kg bags.

LEMON MYRTLE

The Queen of lemon herbs! Lemon Myrtle has a fresh aroma of citrus and a delicate menthol essence, with a sweet and refreshing lemon flavour. This herb is bursting with antioxidants and calcium and contains the highest concentration of plant citral in the world! A delicious flavour enhancer for savoury dishes (especially fish, lamb and chicken) and also wonderful in baking and enjoyed as a tea.

CINNAMON MYRTLE

With a mild cinnamon aroma and flavour this herb can be used in place of regular cinnamon whenever a recipe calls for it. It's great in curries, stews and middle-eastern dishes, desserts such as crumbles, cakes, pies, muffins, and as a herbal tea. It's known to treat dyspepsia, heartburn, colic and digestive issues.

ANISEED MYRTLE

Rich in magnesium, lutein, folate, Vitamin E & Vitamin C, this herb has a subtle liquorice flavour and is wonderful in teas, syrups, cakes, biscuits, dressings, sauces and ice cream's. Aniseed Myrtle has high antioxidant activity and has been shown to have anti-fungal and anti-microbial properties. It has also been found to have very high quantities of the compound anethole, which has shown to help in treating conditions such as anorexia and reflux and to help settle intestinal cramps, colic and flatulence.

WATTLESEED

A little bit nutty (aren't we all?) and chocolaty with a roasted coffee aroma and touches of sweet spice, raisins and chocolate. It has a savoury, nutty, wheat-biscuit flavour. Wattleseed has high concentrations of potassium, calcium, iron, zinc & protein. It's a low glycaemic food, which releases it's sugars slowly and can be used by people with diabetes to help maintain blood sugar levels. Dried, roasted and crushed, our powder can be used in baking, sauces or as a decaf coffee replacement -- just add hot water!

OLD MAN SALTBUSH

Old Man Saltbush is a fast-growing, edible shrub native to most arid parts of Australia. Traditionally used as a food source by the Indigenous Australians, the seeds and leaves of Saltbush are collected and ground for use in damper and to flavour foods. The leaves are also commonly eaten fresh or added to meat while it cooks. Salty in flavour and rich in protein, antioxidants and minerals, Old Man Saltbush is ideal as a herb or sprinkle or as a direct substitute for salt.

STRAWBERRY GUM

One whiff of this herb and you'll want to add it to everything! It's fruity like strawberry or passionfruit but also slightly balsamic. This herb has high antioxidant, anti-fungal and antibiotic properties and has proven to assist with balancing micro flora of the gut.

SANDALWOOD NUTS

Grown on the inside of the fruit born from Australian Sandalwood (*Santalum spicatum*) trees, Sandalwood nuts are Australia's second native nut behind the Macadamia. Utilised for centuries by Indigenous Australians, Sandalwood nuts were consumed as a cure for rheumatoid arthritis and the oils inside applied topically to skin to aid with inflammatory conditions and body aches. Today's research reinforces what was long known by Aboriginal Australians. Sandalwood nut is rich in oils containing ximenylic acid, one of the rarest fatty acids found in the world and hailed as a powerful anti-inflammatory and anti-aging superpower. High in protein and fibre, with minimal carbohydrates, the nuts are also extremely high in monounsaturated omega 9 fatty acid – known to increase good cholesterol, reduce blood pressure and eliminate build up in the arteries

MOUNTAIN PEPPER LEAF

With an aroma of pesto and a spicy, earthy flavour, this herb is great in dressings & marinades or in place of regular pepper whenever you want to spice things up! Mountain Pepper Leaf is one of the native species that exhibits outstanding antioxidant capacity, which have been shown to assist in preventing and delaying Alzheimer's disease, autoimmune and cardiovascular disease, cancer and diabetes. The leaf also contains Vitamin E, lutein (a compound that plays an important role in eye health and wellbeing), zinc, magnesium, and calcium.

MOUNTAIN PEPPERBERRY

Deep in colour, rich in aroma and packed with antiseptic properties, the Mountain Pepperberry is a rare and treasured native spice. Its high antioxidant capacity has been linked to the prevention and delay of cancer, diabetes, Alzheimer's, autoimmune and cardiovascular disease. It also contains high values of Vitamin E, iron, zinc, magnesium and calcium. Aside from its use as a medicinal wonder spice, this berry will take any savoury dish to the next level with its hot and spicy flavour. Add it to curries, marinades, salad dressings or spice rubs for magnificent colour and elevated taste.
